**CASE MANAGEMENT ORDER NO. 14 FOR FUTURE CONSOLIDATED CASES
FILED AGAINST COTTER CORPORATION (N.S.L.) AND/OR MALLINCKRODT
LLC**

The Court is vested with substantial discretion to manage discovery and set deadlines that will help secure “the just, speedy, and inexpensive determination of every action and proceeding.” Fed. R. Civ. P. 1. Federal Rule of Civil Procedure 16 authorizes district courts broad discretion to manage discovery and to control the course of litigation. *Acuna v. Brown & Root Inc.*, 200 F.3d 335, 340 (5th Cir. 2000); *Avila v. Willits Env'tl. Remediation Trust*, 633 F.3d 828, 833 (9th Cir. 2011). This includes the authority to adopt “special procedures for managing potentially difficult or protracted actions that may involve complex issues, multiple parties, difficult legal questions, or unusual proof problems.” Fed. R. Civ. P. 16(c)(2)(L). When a district court takes “early and continuing control” over litigation under Rule 16, it discourages “wasteful pretrial activities.” *Sec. Nat'l Bank of Sioux City, IA v. Day*, 800 F.3d 936, 943 (8th Cir. 2015)(quoting Fed. R. Civ. P. 16(a)(2)-(3)).

The Court finds that this mass tort litigation, which has proceeded for six years and involved voluminous discovery and extensive motions, is a protracted action involving complex

issues that require early control, and it is within the Court's discretion to take steps to manage such complex and potentially burdensome discovery. *See Acuna*, 200 F.3d at 340. Further, while the Court has made no determination about whether Plaintiffs whose claims have been consolidated herein can meet their burden of establishing general and specific causation in these consolidated cases, at this point in the litigation the Court believes that proof of causation will be a difficult burden for the Plaintiffs to meet. Accordingly, the Court finds it necessary and appropriate to require future Plaintiffs to make a threshold showing on key elements of their claims at the outset of the litigation before proceeding with more detailed and expansive discovery.

Consistent with the Court's inherent authority to manage judicial proceedings, the wide discretion afforded district courts to manage discovery under the Federal Rules of Civil Procedure, and in light of the respective Master Settlement Agreements entered into by counsel for Cotter Corporation and Mallinckrodt LLC Defendants and Plaintiffs after six years of litigation, the Court finds it appropriate at this time to exercise its discretion to enter this Case Management Order ("CMO") in order to efficiently manage any cases against Cotter and/or Mallinckrodt and future Plaintiffs who have not heretofore been parties to this consolidated litigation. This CMO requires any such Plaintiffs to produce certain specified information regarding their claim(s) for the purpose of assisting the Court and the parties in narrowing the scope of discovery and establishing a logical and streamlined method for proceeding in these complex cases at an early stage of the litigation.

The Court Orders that the following schedule shall apply regarding cases filed against Mallinckrodt LLC and/or Cotter Corporation (N.S.L.), or any of their successors or parent or affiliated companies (collectively, "Cotter" and "Mallinckrodt"), by Plaintiffs who, prior to the

date of this Order, were not parties to this consolidated litigation and whose cases are consolidated for pretrial proceedings following the date of this Order (“Future Consolidated Cases”).¹

This Order shall apply to all cases alleging Radionuclide Exposure Claim(s) against Cotter and/or Mallinckrodt. “Radionuclide Exposure Claim(s)” are claims arising from, related to or in any way pertaining to any alleged exposure to ionizing radiation and/or radionuclides arising from production of uranium for the United States by Mallinckrodt and allegedly released by Mallinckrodt, Cotter and/or other Persons or Entities in the St. Louis area after 1941, including any derivative or future claims.

This Order does not apply to cases filed before the entry of this Order that are not hereafter transferred to the undersigned for consolidated pretrial proceedings, or cases subject to the Master Settlement Agreements executed on September 12, 2018. However, cases subject to the Master Settlement Agreements executed on September 12, 2018, that reject settlement under those Agreements shall be subject to all other applicable pretrial orders of the Court.

I. General Provisions

1. For purposes of this Order:

a. “Alleged Injury” shall mean any injury that a plaintiff identifies as the basis for any Claim in a Complaint, Plaintiff Questionnaire (attached hereto as Ex. A) as required by this Court’s Order entered on November 24, 2014 (Dkt. 247), or any other filings, submission, or response;

b. “Claim” shall mean any and all cases filed in, transferred, or removed to this Court, and consolidated for pretrial proceedings before the undersigned after the date

¹ Pursuant to the Order from the Chief Judge for the United States District Court for the Eastern District of Missouri, all Claims referred to in this CMO shall be transferred to the undersigned for pretrial proceedings.

of this Order, claiming injury, loss or damage of whatsoever nature a Plaintiff has or may acquire against Cotter and/or Mallinckrodt arising from, related to or in any way pertaining to any Radionuclide Exposure Claim(s), including without limitation all known and unknown past, present and future claims for all forms of injury to any parts of the person, mind and/or body; the wrongful death of any other person; any form of economic loss; any form of non-economic loss; loss of society, comfort, association, care, sexual relations, and/or alleged loss of consortium related to any other person; all past, present and future economic injuries or losses to real or personal property; claims for fear of cancer; claims for medical monitoring now or in the future, and all claims for punitive damages, penalties and/or attorneys' fees;

c. "Cotter" shall mean defendant Cotter Corporation (N.S.L.) and affiliated entities.

d. "Mallinckrodt" shall mean defendant Mallinckrodt LLC and affiliated entities.

2. Various provisions of this Order require Plaintiffs to serve documents on or provide notice to Cotter and/or Mallinckrodt. Such service and notice pursuant to this Order should be provided by e-mail and by either registered mail (with return receipt) or overnight delivery service to:

II. Findings of Fact

Based on the extensive record in this case, including pleadings, expert reports, and other documents filed with this Court, the parties agree that the following summary of facts is not in dispute:

In 1974, the Formerly Utilized Sites Remedial Action Program (“FUSRAP”) was established. St. Louis Airport Storage Site (“SLAPS”) and Hazelwood Interim Storage Site (a/k/a Latty Avenue) along with areas near or adjacent to SLAPS and Latty Avenue, including Coldwater Creek and haul roads (“Vicinity Properties”) were included in the remediation program. From 1976 through 1978, Oak Ridge National Laboratory conducted radiological investigations of SLAPS, Latty Avenue, and the Vicinity Properties (collectively, the “Sites”). There was news coverage of the investigations, the origin and history of the radionuclides, and the companies involved with SLAPS and Latty Avenue.

In 1989, the Environmental Protection Agency (“EPA”) placed SLAPS and Latty Avenue on the National Priorities List (“NPL”) which required the remediation and cleanup of the sites to proceed under the guidelines of the Comprehensive Environmental Response, Compensation and Liability Act (“CERCLA”). In 1997, FUSRAP was transitioned from the Department of Energy to the U.S. Army Corps of Engineers (“USACE”). At that time, the USACE invited the public to participate in setting the interim cleanup standards for the Sites.

Throughout the investigation and remediation process of the Sites, the local, state, and federal government agencies have held public meetings, sought public input, and made data and documents available on publicly available websites, including the FUSRAP website. The remediation, cleanup, and current litigation has also been publicized in local and national

newspapers, such as the Wall Street Journal and Washington Post, local and national television news reports, such as CBS Good Morning, and multiple film documentaries, including a documentary entitled, “Atomic Homefront,” that premiered in movie theaters before airing nationally on HBO.

III. Conclusion of Law

Based on the undisputed facts outlined above, the Court finds that the allegations and underlying facts in the Radionuclide Exposure Claims made in this consolidated mass tort litigation have been widely publicized and this publicity would be material to a determination of a date by which any reasonable person had notice of a potentially actionable injury relating to Radionuclide Exposure Claims.

IV. Preservation of Records

Upon consolidation of any Future Consolidated Cases (whether originally filed in this Court or removed to this Court) into this mass tort litigation, each plaintiff shall serve on Cotter and/or Mallinckrodt a sworn certification by Plaintiffs’ counsel or, if the plaintiff is proceeding *pro se*, by the plaintiff, attesting that a notice to preserve records relating in any way to the Alleged Injury was provided to all physicians, medical facilities, other healthcare providers, or pharmacies.

V. Plaintiff Questionnaire

1. Within forty-five (45) days of consolidation of any Future Consolidated Cases (whether originally filed in this Court or removed to this Court) into this mass tort litigation, each plaintiff shall serve on Cotter and/or Mallinckrodt a full and complete Plaintiff Questionnaire, including all verifications and authorizations, that complies with the requirements of the Scheduling Order governing submission of Plaintiff Questionnaire and authorizations in

the forms previously approved by the Court.

2. Each plaintiff shall provide Cotter and/or Mallinckrodt with a Plaintiff Questionnaire that is substantially complete in all respects. Each plaintiff shall answer every question in the Plaintiff Questionnaire, even if the plaintiff can answer the question in good faith only by indicating “not applicable.” The Plaintiff Questionnaire shall be signed by plaintiff under penalty of perjury. If a plaintiff is suing in a representative or derivative capacity, the Plaintiff Questionnaire shall be completed by the person with the legal authority to represent the estate or person under legal disability.

3. A completed Plaintiff Questionnaire shall be considered interrogatory answers under Fed. R. Civ. P. 33 and responses to requests for production under Fed. R. Civ. P. 34, and will be governed by the standards applicable to written discovery under Federal Rules 26 through 37. Each question in the Plaintiff Questionnaire shall be answered without objection, and all requested documents shall be produced. This section does not prohibit a plaintiff from withholding or redacting information from medical or other records provided with the Plaintiff Questionnaire based upon a recognized privilege. If information is withheld or redacted on the basis of privilege, plaintiff shall provide defendants with a privilege log that complies with Rule 26(b)(5) simultaneously with the submission of the full and complete Plaintiff Questionnaire. Each plaintiff also shall provide all documents and authorizations required by the Plaintiff Questionnaire to the defendants simultaneously with the submission of the full and complete Plaintiff Questionnaire.

4. The Plaintiff Questionnaire, including all required verifications, documents, and privilege logs, shall be emailed to Cotter and/or Mallinckrodt’s counsel at the email addresses in the signature by the deadline specified above.

5. As provided in Section VIII below, a failure to provide a Plaintiff Questionnaire in full compliance with all requirements of this order may result in appropriate sanctions, including dismissal of the case in its entirety.

VI. Medical Records

1. Within forty-five (45) days of consolidation of any Future Consolidated Cases (whether originally filed in this Court or removed to this Court) into this mass tort litigation, each plaintiff shall serve on Cotter and/or Mallinckrodt all medical records in the plaintiff's possession relating in any way to each Alleged Injury from any physician, medical facility, other healthcare provider, or pharmacy.

2. Within forty-five (45) days of consolidation of any Future Consolidated Cases (whether originally filed in this Court or removed to this Court) into this mass tort litigation, each plaintiff shall serve on Cotter and/or Mallinckrodt a sworn certification by Plaintiffs' counsel or, if the plaintiff is proceeding *pro se*, by the plaintiff attesting that all medical records have been served on Cotter and Mallinckrodt and/or an explanation why any such records previously but no longer in the plaintiff's possession have not been served.

3. Within forty-five (45) days of consolidation of any Future Consolidated Cases (whether originally filed in this Court or removed to this Court) into this mass tort litigation, each plaintiff shall serve on Cotter and/or Mallinckrodt a sworn certification by Plaintiffs' counsel or, if the plaintiff is proceeding *pro se*, by the plaintiff attesting that the plaintiff has complied with Section IV.1, including a list of the names and addresses of all entities to which the plaintiff provided notice under Section IV.1, copies of the notices, and, once available, copies of return receipts or other proofs of delivery.

VII. Expert Disclosures

1. Within sixty (60) days of consolidation of any Future Consolidated Cases (whether originally filed in this Court or removed to this Court) into this mass tort litigation, each plaintiff shall serve on Cotter and/or Mallinckrodt a case-specific expert report fully complying with Federal Rule of Civil Procedure 26(a)(2) on:

Cotter:

a. the concentrations of effluent discharges at the boundary of the Latty Avenue site (also known as the Hazelwood Interim Storage Site and/or the Futura Coatings Site, located at 9200 Latty Avenue, Hazelwood, MO) allegedly attributable to Cotter's operations and whether such concentrations exceed the effluent limitations found in 10 C.F.R. § 20.106(a), Appendix B;

b. the organ dose attributable to Cotter's operations at the Latty Avenue site from 1970-1974 that each plaintiff received at each location of alleged exposure for each illness or injury resulting from said organ dose;

c. the whole-body effective committed dose (mrem/year) attributable to Cotter's operations at the Latty Avenue site that each plaintiff received;

d. general causation for the injury(ies) or illness(es) alleged by the plaintiff from a medical expert opining to a reasonable degree of medical or scientific certainty that the plaintiff's exposure to radiation from the Latty Avenue site attributable to Cotter's operations at the site from could have caused the development of the type of injury(ies) or illness(es) alleged by the plaintiff;

e. specific causation for the injury(ies) or illness(es) alleged by the plaintiff from a medical expert opining to a reasonable degree of medical or scientific certainty that the plaintiff's exposure to radiation from the Latty Avenue site attributable to Cotter's

operations at the site caused or contributed to the development of the injury(ies) or illness(es) alleged by the plaintiff.

Mallinckrodt

a. the concentrations of effluent discharges at the boundary of the SLAPS site allegedly attributable to Mallinckrodt's operations and whether such concentrations exceed the effluent limitations found in 10 C.F.R. § 20.106(a), Appendix B;

b. the organ dose attributable to Mallinckrodt's alleged operations at the 21.74-acre site in the vicinity of the St. Louis Airport in north St. Louis County, Missouri ("SLAPS") that each plaintiff received at each location of alleged exposure for each illness or injury resulting from said organ dose;

c. the whole-body effective committed dose (mrem/year) attributable to Mallinckrodt's alleged operations at the SLAPS site that each plaintiff received;

d. general causation for the injury(ies) or illness(es) alleged by the plaintiff from a medical expert opining to a reasonable degree of medical or scientific certainty that the plaintiff's exposure to radiation from the SLAPS site attributable to Mallinckrodt's alleged operations at the site could have caused the development of the type of injury(ies) or illness(es) alleged by the plaintiff;

e. specific causation for the injury(ies) or illness(es) alleged by the plaintiff from a medical expert opining to a reasonable degree of medical or scientific certainty that the plaintiff's exposure to radiation from the SLAPS site attributable to Mallinckrodt's operations at the site caused or contributed to the development of the injury(ies) or illness(es) alleged by the plaintiff.

f. To the extent a plaintiff alleges exposure attributable to Mallinckrodt's

alleged operations at the Destrehan Street Refinery and Metal Plants a.k.a. the St. Louis Downtown Site (“SLDS”), then the plaintiff must produce a case-specific expert report fully complying with Federal Rule of Civil Procedure 26(a)(2) for the topics covered in paragraphs (a)-(d) above.

2. Disclosures are required for all known expert witnesses who will be providing such testimony. Failure to provide adequate expert report(s) by the foregoing deadline may be grounds for appropriate action by the Court upon motion, which could include a motion for summary judgment.

VIII. Failure to Comply

1. The Court has established the foregoing deadlines for the purpose of ensuring that pretrial litigation for any new cases will flow as smoothly and efficiently as possible. Accordingly, the Court expects strict adherence to them.

2. Any plaintiff who fails to fully comply with the requirements of this Order shall be given notice of such failure by email or fax from Defendants and shall be provided thirty (30) additional days to cure such deficiency (“Cure Period”). If a Plaintiff fails to cure the deficiency within the Cure Period, Defendants shall meet and confer with Plaintiff, and if that does not promptly result in a cure, then Defendants may file a Motion to Show Cause why that case should not be dismissed with prejudice. Plaintiff shall thereupon have seven (7) days to respond to the Motion to Show Cause. Any failure to respond to the Motion within the required period of time shall lead to the dismissal of the case with prejudice, except for good cause shown.

UNITED STATES DISTRICT JUDGE

Dated this 15th day of October, 2018.

EXHIBIT A

PLAINTIFF QUESTIONNAIRE

Each plaintiff who alleges personal injury as a result of exposure to radiation must complete a Questionnaire under penalty of perjury. If you are completing this Questionnaire in a representative capacity on behalf of someone who has died or who otherwise cannot complete the Questionnaire, please answer as completely as you can for that person.

In completing this Questionnaire, please use the following definitions: (1) “you” refers to the person who alleges personal injury as a result of exposure to radiation, unless otherwise specified; (2) “healthcare provider” means any hospital, clinic, medical center, physician's office, urgent care center, infirmary, laboratory, or other facility that provides medical, dietary, psychiatric or psychological care or advice, and any pharmacy, physical therapist, rehabilitation specialist, physician, psychiatrist, osteopath, homeopath, chiropractor, psychologist, therapist, nurse, herbalist, nutritionist, dietician, or any other persons or entities involved in the evaluation, diagnosis, care and/or treatment of you; and (3) “document” means any writing or record of any type in your possession or the possession of your attorney, including, but not limited to, written documents, e-mails, cassettes, videotapes, DVDs, photographs, medical records, charts, computer discs, tapes, or CDs, x-rays, drawings, graphs, non-identical copies, and other data from which information can be obtained and translated, if necessary, through electronic devices into a reasonably usable form. **You may attach as many sheets of paper as necessary to fully answer these questions.**

If you have any documents (as defined above) that you are requested to produce as part of answering this Questionnaire or that relate to the injuries, claims, and/or damages that are the subject of your complaint, you must NOT dispose of, alter, or modify these documents or materials in any way. You are required to give all of these documents and materials to your attorney as soon as possible. If you are unclear about these obligations, please contact your attorney.

In completing the Questionnaire, you must provide information that is true and correct to the best of your knowledge. If you cannot recall all of the details requested, please provide as much information as you can. **Please do not leave any answers blank.** You must supplement your responses if you learn that they are incomplete or incorrect.

You must provide a full and complete response by _____.

I. Case Information

A. If you are completing this Questionnaire in a representative capacity (on behalf of the estate of a deceased person or a minor), please complete the following:

1. Your name: _____
